

Swedish Erik

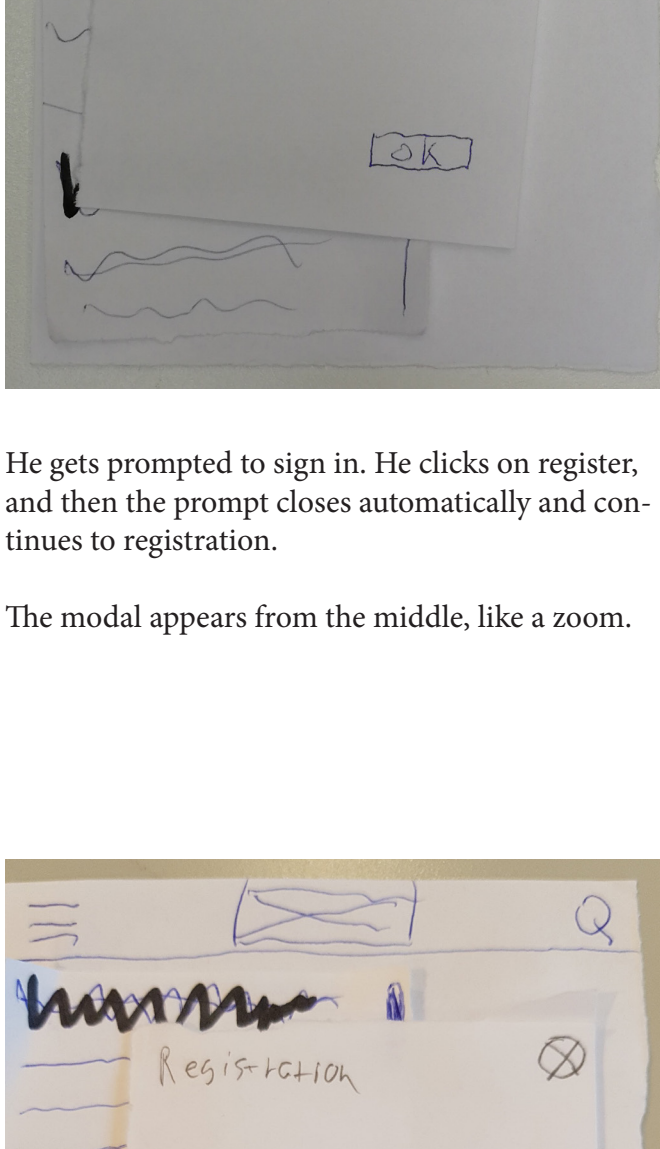

He clicks the hamburger meny

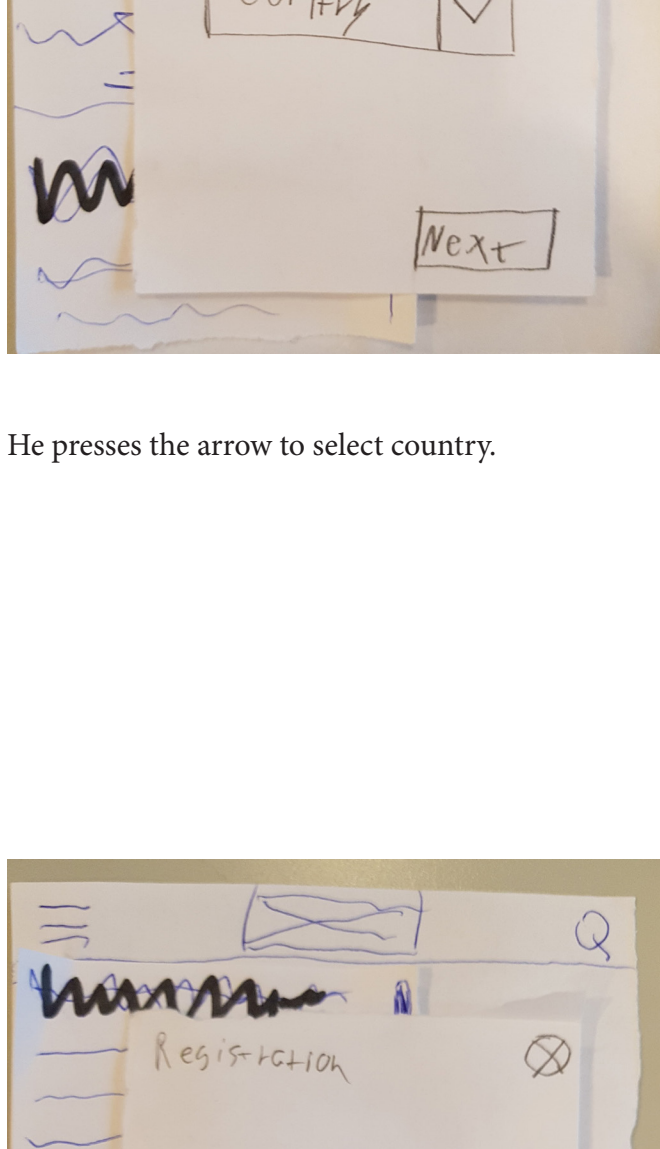

He goes to education and selects e-learning

The meny appears from top left corner.

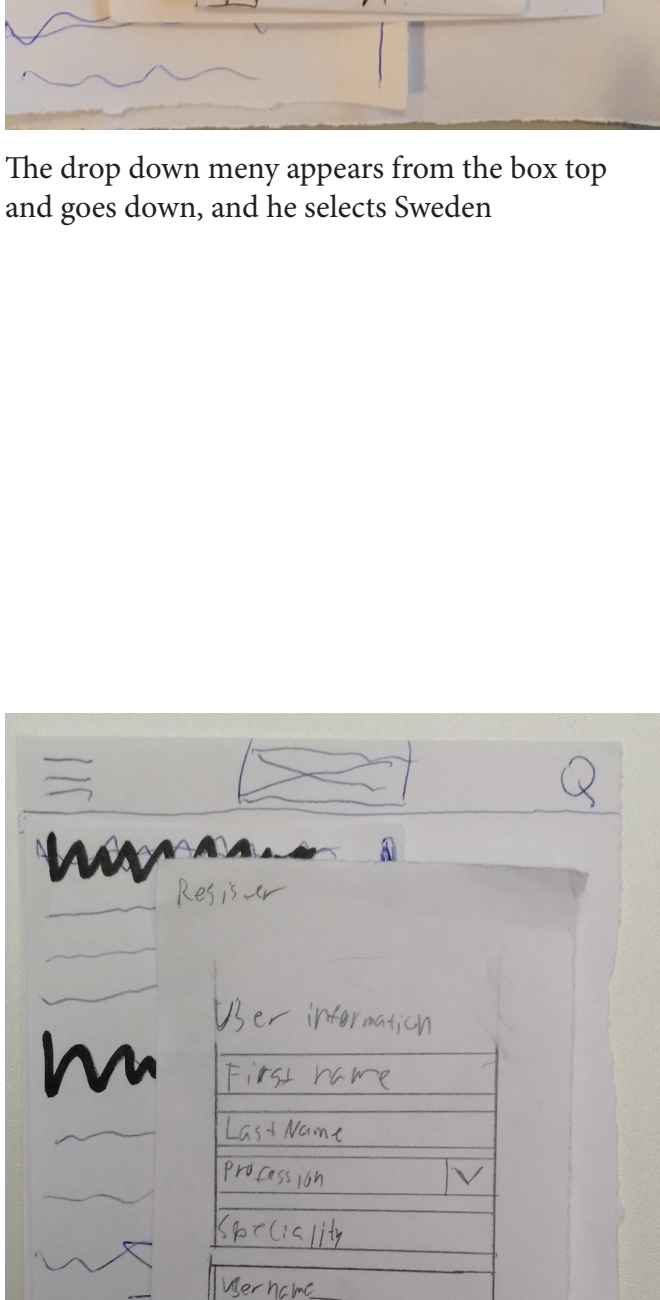

He gets prompted to sign in. He clicks on register, and then the prompt closes automatically and continues to registration.

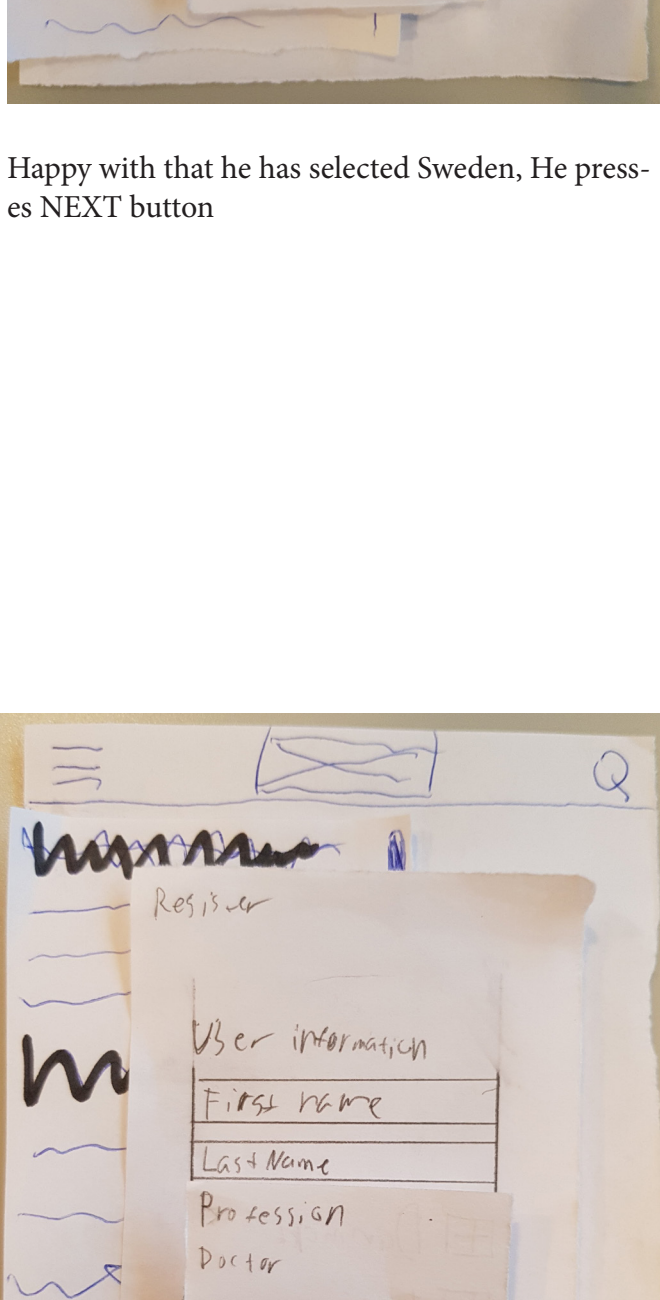

The modal appears from the middle, like a zoom.

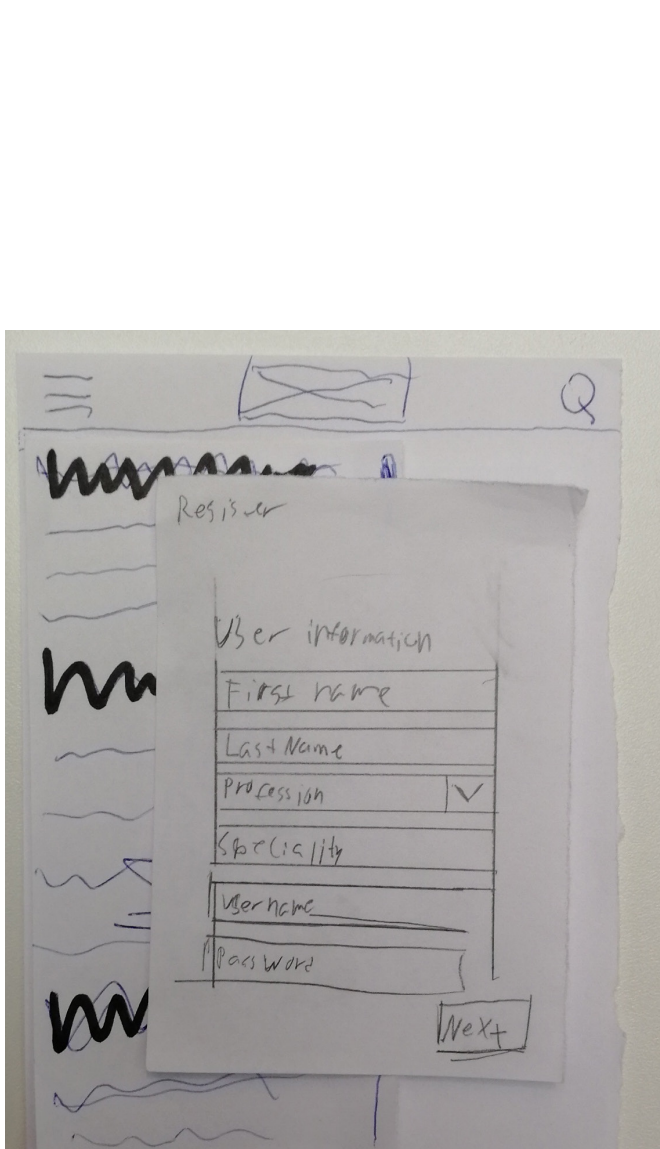

He presses the arrow to select country.

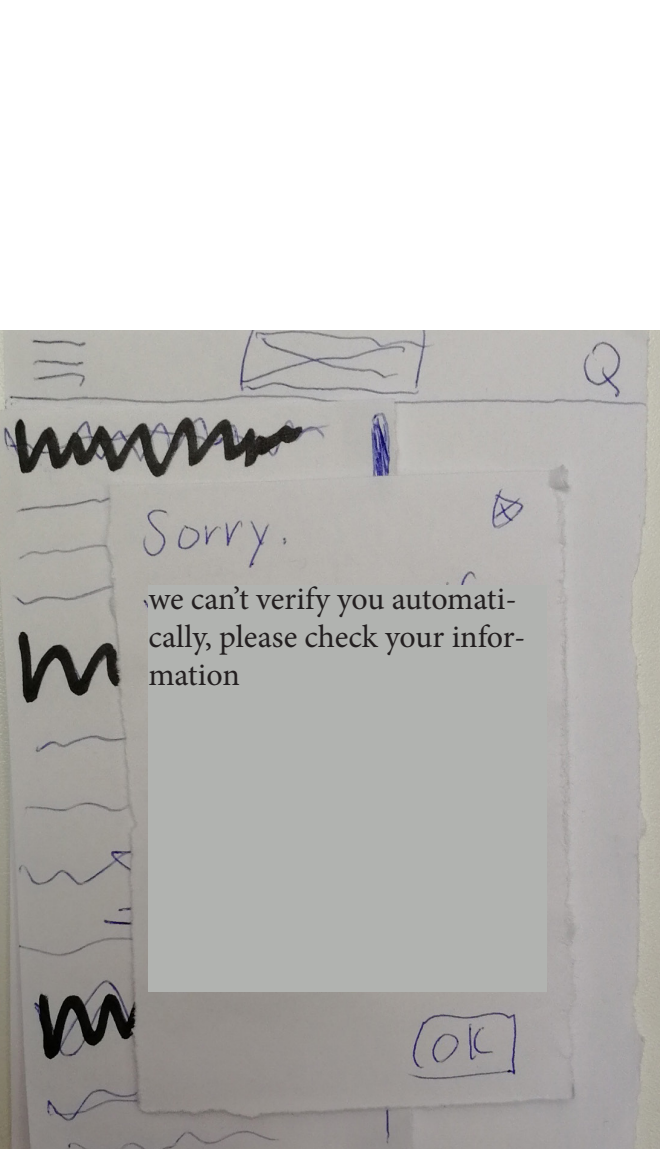

The drop down meny appears from the box top and goes down, and he selects Sweden

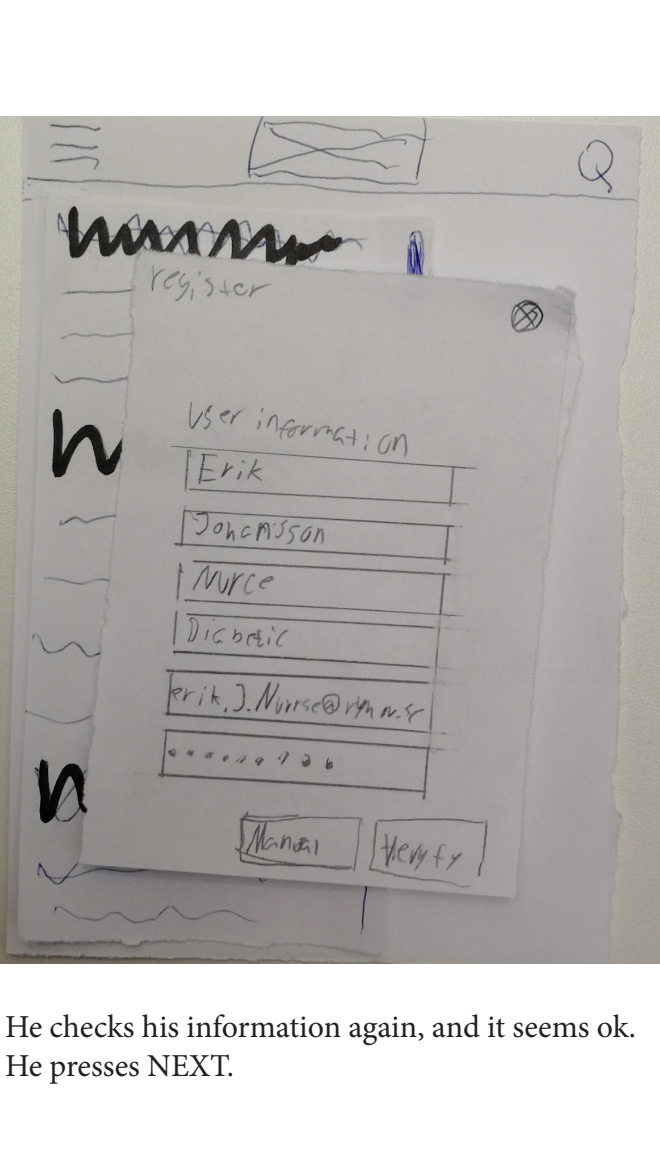

Happy with that he has selected Sweden, He presses NEXT button

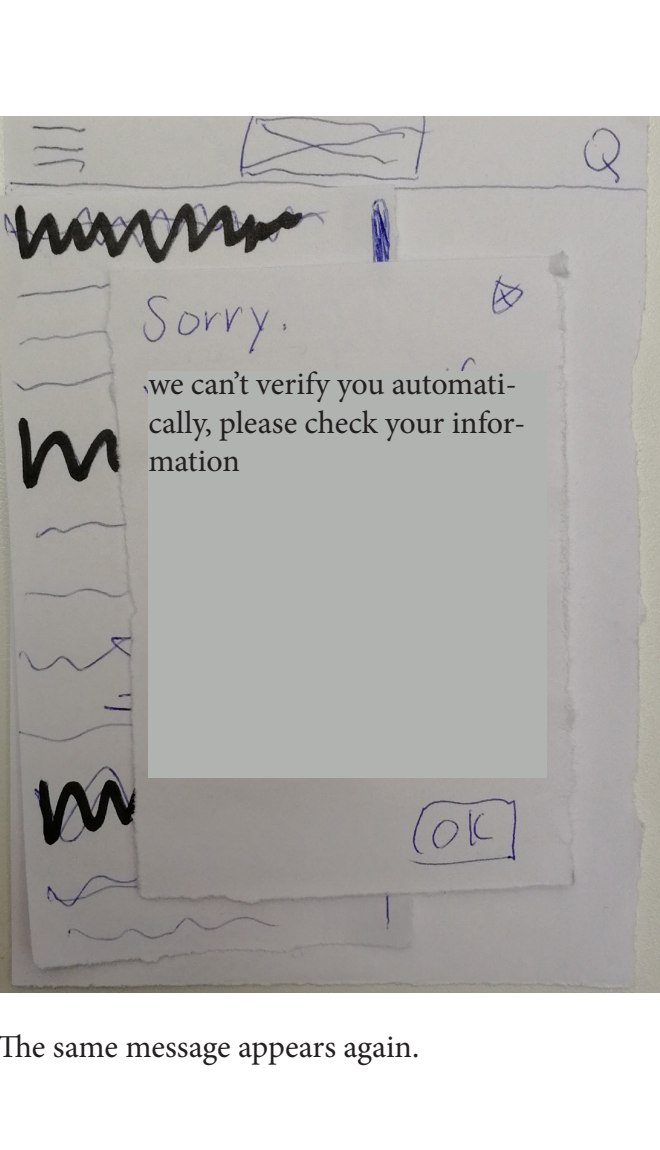

Here he fills in his name, lastname. This next step aperes from the right side of the modal and pushes the previus step to the left of screen

He chooses his profession in a drop down meny that appears from the top box. Selects Nurse.

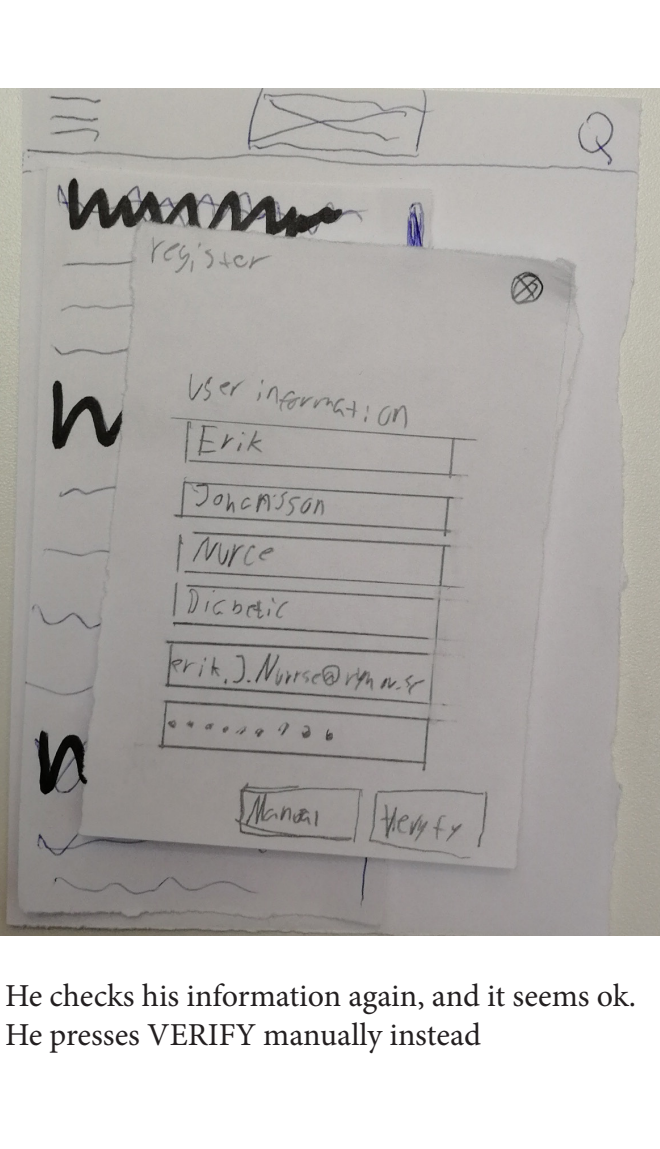

He continues to fill in his work e-mail (username) and Password and specification. Presses VERIFY button. After this step, it has a small loading circle before viewing the thank you message all showing u like pushing the precvius content left

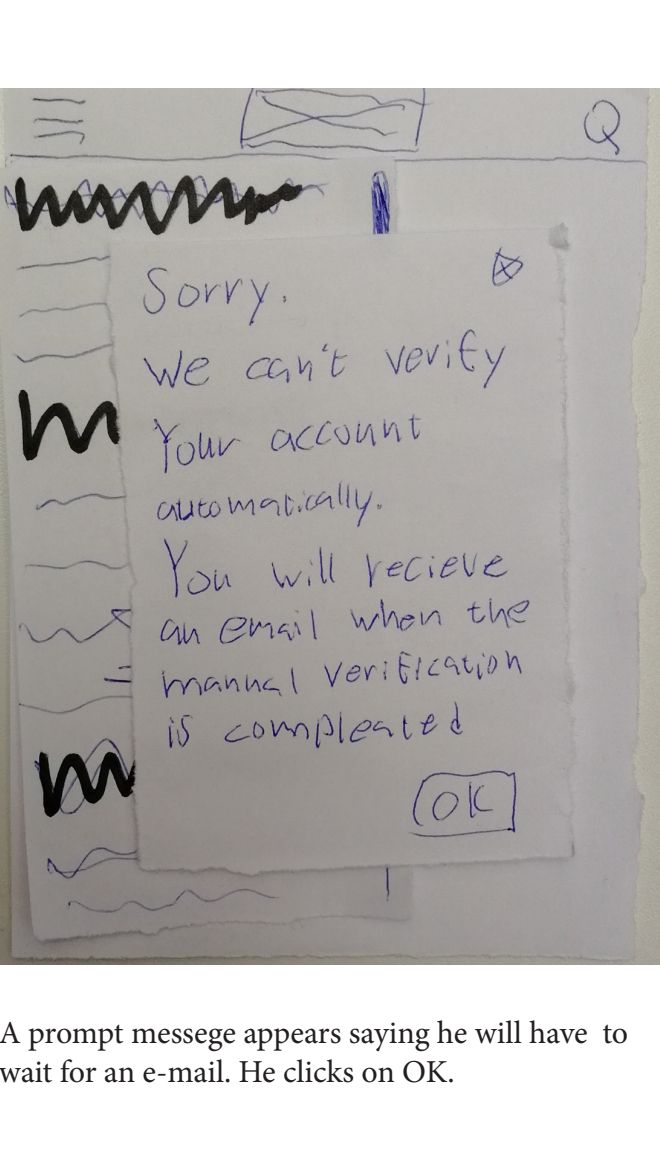

A prompt messege saying that they cant verify him.

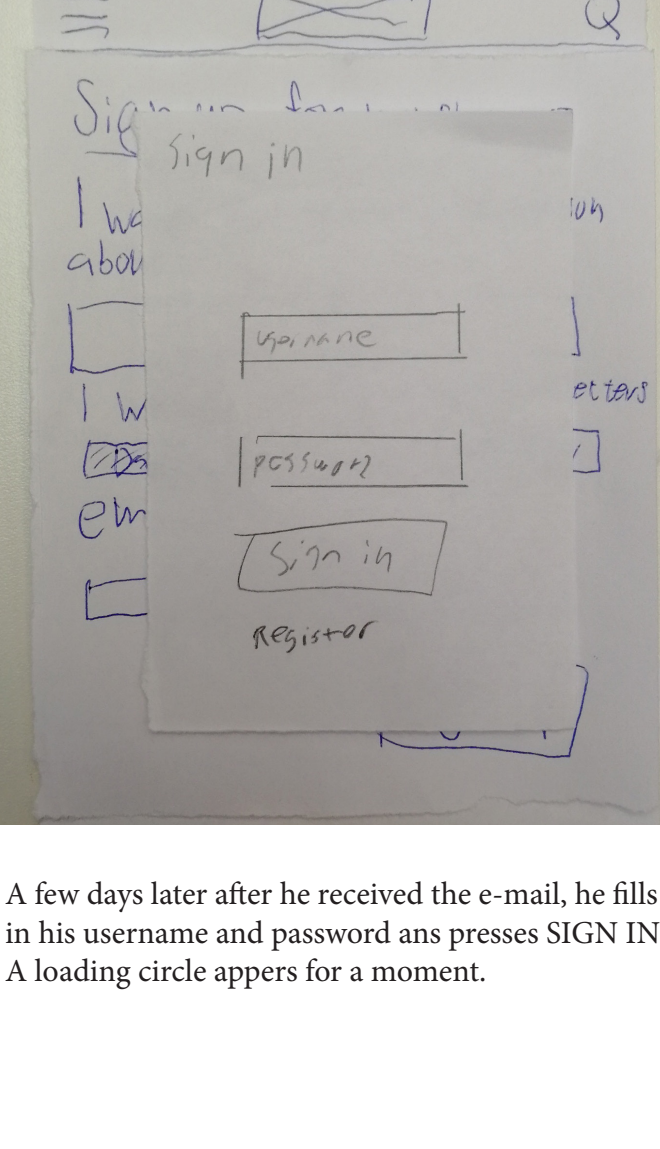

This next step aperes from the right side of the modal and pushes the previus step to the left of screen This next step aperes from the right side of the modal and pushes the previus step to the left of screen

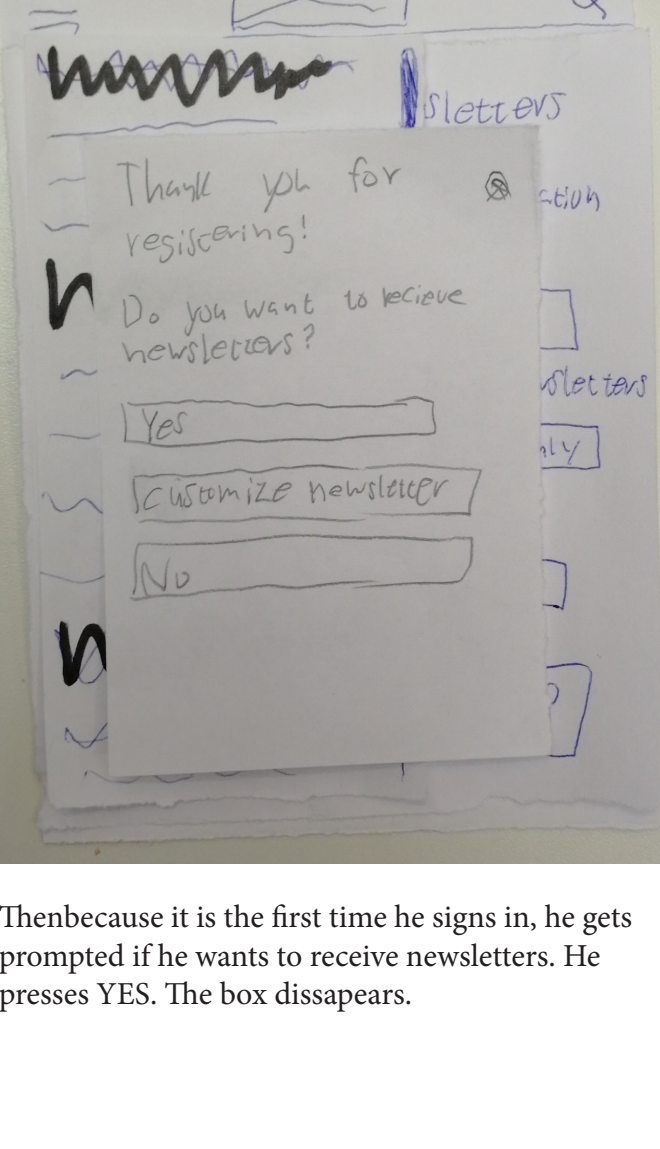

He checks his information again, and it seems ok. He presses NEXT.

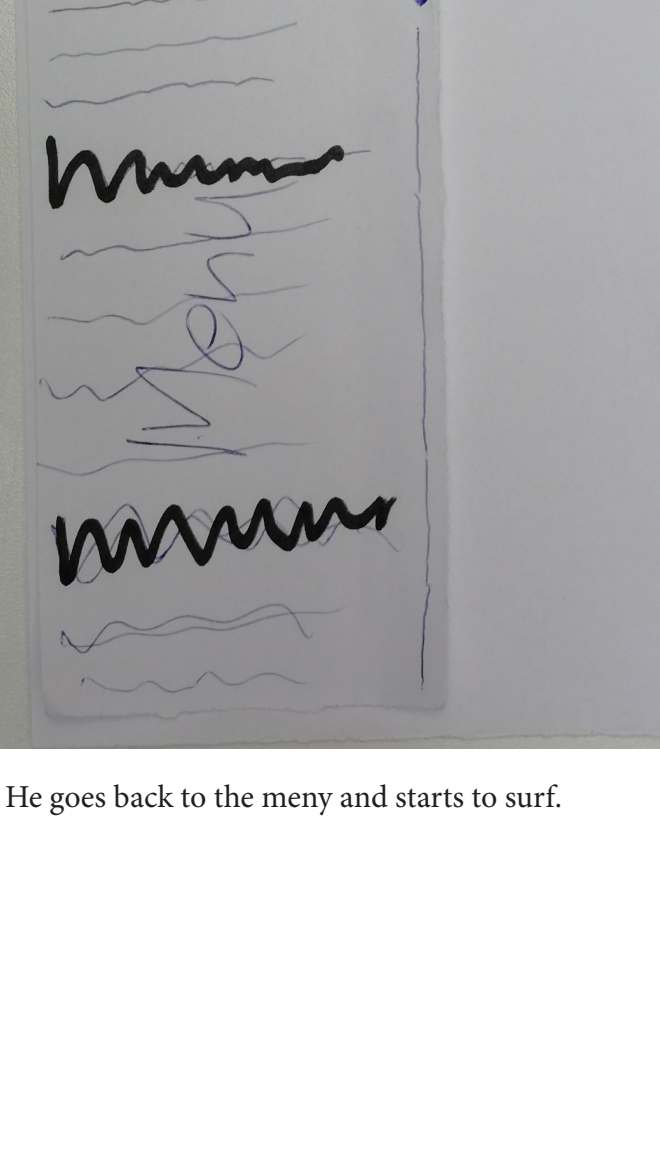

The same message appears again.

He checks his information again, and it seems ok. He presses VERIFY manually instead

A prompt messege appears saying he will have to wait for an e-mail. He clicks on OK.

He goes back to the meny and starts to surf.

Thenbecause it is the first time he signs in, he gets prompted if he wants to receive newsletters. He presses YES. The box dissappears.
